Can all riders please make sure they have familiarised themselves with the most recent guidance for attending a trial by the ACU and also follow current government guidelines.

As this is our first trial since the Covid 19 outbreak we are having to run things a little different to normal so please read carefully the following rules and guidance in how we need to operate.

Travel, Only one individual per vehicle unless individuals are from the same house or support bubble.. If competitors / officials or someone in their household or support bubble are showing coronavirus symptoms, everyone in that household / support bubble should stay at home. If a competitor / official or a member of the household or support bubble are contacted as part of the test and trace programme, the individual contacted should stay at home. If that individual becomes symptomatic, everyone in the support bubble must self-isolate and stay at home.

On arrival please park your vehicle leaving a 2m wide gap between you and the next vehicle.

Please try and keep to the 2m social distancing rule at all times.

Riders will need to provide their own number and bring it with them and present it to the secretary of the meeting. There will be no signing on, the secretary will mark you down as attending the event once you have presented your number to him. There will be no observers at this event and therefore we have placed you into 10 groups, 5 riders per group. See attached list with your riding number and group number.

One person within the group will be the sole recorder of the scores for all 5 riders at each section.(i.e. no swapping of pen and paper)

All 5 riders are to complete the section before moving onto the next section.

There is a maximum of 3 riders allowed to inspect a section at anyone time and they should walk the section in one direction so as not to keep crossing each other.

Please wait for each group of riders to complete the section, no mixing of groups.

Riding Group 1 will start at section 1 and group 2 will start at section 2 etc
